

**ProfilGate<sup>®</sup>**

in the

**International Dairy  
Industry**

ProfilGate go in the entrance area cleans the employee's shoe soles before entering the factory.

ProfilGate aqua in combination with a SolTec III cleans both, shoe soles and tires of little trolleys.

With the help of ProfilGate broken glass was collected within the tray.

ProfilGate avoids transportation of foreign matter, e.g. swarfs, between workshop and sensible areas.

After a successful above ground test period with ramps, ProfilGate was installed in ground.

ProfilGate for dry cleaning

ProfilGate aqua for disinfection
